MEMORANDUM FOR: Acting Director of Central Intelligence

SUBJECT: Field Personnel Increases for Contact Division,
 Office of Operations

REFERENCE: Memorandum, same subject, dated 16 August 1956 to
 DDCI from DD/I.

1. The DDCI has requested the DD/I to indicate the net personnel increases in the [redacted] T/O of the Contact Division, OD if the Inspector General's recommendations which are concurred in by the DD/I are approved. The answer is 15.

2. The figure of 15, however, is the decision of the DD/I because several ID recommendations for augmentation did not specify the number of positions. The DD/I's proposed increase of 1 in the [redacted] Office and the elimination of the [redacted] Office (2 positions) were specifically recommended by the ID. The ID recommendation for [redacted] was to transfer 2 positions from the [redacted] Office; the DD/I proposal is to transfer 1 and increase the T/O by 1. The ID makes it clear that the [redacted] Offices should be augmented, but does not indicate by how much; the DD/I proposes 8 positions. The need for more positions in the [redacted] is also endorsed by the ID without specifying numbers; the DD/I proposes 7.

3. The [redacted] Office is described by the ID as "one of the offices from which it should be possible to transfer at least one contact specialist to another field office having a greater need." Concerning the [redacted] Office, the ID states that "one and possibly two additional contact specialists should be assigned to the [redacted] Office as soon as possible after the more pressing needs of the [redacted] Offices have been provided for." The [redacted] Offices are not included in the DD/I proposal.

4. On page 26 of his report the ID summarizes the field needs thus: "For some field stations, increases in the professional staffs are recommended. It is not intended, however, to be construed as a recommendation for an over-all increase in the total field strength. It should be accomplished by a redistribution of present strength from areas of relatively low potential to areas which are not being exploited adequately."

CONFIDENTIAL

5. It is to be noted that the DD/I's concurrence is incompatible with the IO's statement in Paragraph 4 above.

6. The 31 August 1956 strength, ceiling and T/O figures are as follows:

	<u>Content Div.</u>	<u>02</u>	<u>DD/I</u>
Ceiling			
Strength			
Strength/Ceiling			

T.O.*1
T/O/Ceiling

*1 Management Staff has not completed the project of bringing T/O's down to ceiling for all of DD/I. In respect to 02 we have done this job in [redacted] only. Hence the above T/O's must be looked at from this point of view.

STATSPEC

7. The real significance in the DD/I's position of desiring to add 15 ceiling positions lies in the possibility of the DD/I shifting existing excess ceiling from other units to satisfy the objective. There appears to be sufficient leeway vis-a-vis strength for his total area to accomplish this. If the number in process, reduced by the average mortality rate of 50%, is added to the strength figure, the DD/I Area is still 11 positions under ceiling. The strength and ceiling distribution is shown below.

<u>Office</u>	<u>Strength</u>	<u>Ceiling</u>	<u>Strength/Ceiling</u>
DDI Office

ONS			
OHR			
OSI			

25X9A2

8. It is recommended that the DD/I obtain the 15 ceiling positions from other components of the DD/I area. to the extent that DD/I wishes to augment the 00 Field offices. /s/ CPC
The recommendation in paragraph 8 (signed) H. Gates Lloyd
is approved (disapproved)
